Turnkey PICS

# Managing your pharmaceutical room doesn't have to be complicated.

PICS makes it easy to track inventory, conduct audits, and keep shelves stocked, before you run out.

Easy Setup & Use
- A Turnkey service rep guides you through setup, identifying your preferred products and stocking levels.
- Once configured, you can receive, transfer, check out, and adjust inventory manually, with a barcode scanner or by using weight-based scales.

Proactive Inventory Control
- Reorder reminders notify you when items are needed before you run out.
- Track items in transit to your location.
- Monitor expiration dates for time-sensitive products.

Security You Can Trust
- System setup allows for each employee to have a unique ID and password.
- Keylocks available for medicine rooms to identify personnel entry and access.
- Adding or removing an item is logged and recorded for each user.
- Archived records for easy reference.

Customizable Reports
- Built-in sort/filter tools for targeted results.
- Export data in common file formats.
- Schedule automatic reports to track inventory valuation, item numbers, lot expirations, and transaction details.

Flexible Access
- Available as a web-based desktop platform and mobile app for Apple iOS and Android devices.

Touch-Free Scale Integration
- In partnership with Mettler Toledo®, PICS supports weight-based inventory entry.
- Scales track products by unit weight or dose measurement for frictionless control.

Why Choose PICS?
- With PICS, you gain the confidence of knowing your inventory is accurate, secure and easy to track.
- Save time, reduce waste, and eliminate costly shortages.
- Maintain accurate, real-time inventory data.
- Adaptable for operations of any size.
